4. Unit Testing Summary
4.1. Traceability from Test Cases to Use Cases
<Mark the cell with an "x" where the Test Case tests.>

USE CASE ID			UC110	UC210	UC240	UC310	UC250	UC320	UC330
Test	*Test CaseTitle*	*Totals*	*1*	*1*	*0*	*1*	*0*	*0*	*3*
TC001	*BikeConstructor*		*x*						
TC002	*BikeInformationController*			*x*					
TC003	*CalculateFee*								*x*
TC004	*CheckHaveToPay*								*x*
TC005	*CardConstructor*					*x*			*x*

Table: Test Case-to-Use Case Traceability Matrix

Note: We currently have no special test suit since we want to focus on each smaller subsystem

Test-suit for usecase might have subsystem integrations, which might turn into integration test

The test cases are not fully designed because some usecases are more suitable with integration test than unit test, since it involes many su
